*"We are deeply saddened by the terrible earthquake in Syria and Turkey. Our thoughts and deepest sympathy are with the victims and their families.*

*In recent years, students from Syria have found their academic home at the Europa-Universität Viadrina. A close exchange in teaching and research has connected us with Turkey for many years, especially with our twelve partner universities in the country.*

*We stand by our students, researchers and partners from and in Turkey and Syria."*

Prof. Dr. Eva Kocher  
President of the European University Viadrina Frankfurt (Oder)
