

14-15 October International Excursion Zielona Góra

Culture meets culture

Excursion including workshop: 1 ECTS

It's great to be an international student - but studying in general is different and sometimes other students' behavior seems to be strange. How to deal with the situation?

Let's travel to a nice Polish city to experience and reflect on culture in all its specifications. You will meet new people, have fun and easily get to know your fellow students from all over the world. In order to facilitate studying and living abroad we will train intercultural communication using interactive methods.

Join us for the excursion and train your soft skills!
